INSTRUCTIONS

Net factory sales dollar defined as follows: Published cost to customers less (a) freight, (b) all cooperative advertising incorporated in manufacturer's price, (c) any changes which may be made for replacements beyond regular warranty, and (d) excise taxes, if imposed.

Sales apply to the above products that are manufactured and/or marketed in the United States (including imported products) plus those exported from the United States. This includes all sales (company brand, private labels, etc.) fitting this description EXCEPT as noted below.

To avoid duplication, when one member ships to another AHAM member (see attached list of members) for resale under the purchaser's brand, the purchaser, and not the seller, should include the sale of such items in his report.
